Research Work / Studies

Evaluating the results of ACED Blue Plate for Better Learning Feeding Program – November 2016 to Current

- a research paper that proposes to conduct a process and impact evaluation of the ACED Blueplate for Better Learning Program as a crucial contribution to the development of an evidence-based feeding program for Philippine schools which is sustainable, replicable, scalable, and cost-effective. In consideration of budget and time constraints, the process and impact evaluation will focus on the ACED Blueplate implemented in the City of Valenzuela, Metro Manila.

Logistics Audit for Monde Nissin – May – August 2009

- A Warehouse and Logistics study For Monde Nissin in Sta. Rosa, Laguna. The study aims to improve the overall throughput of the whole logistics process starting from inventory acquisition from the production all the way to loading of cases to trucks and dispatch.

Strategic Management Paper on the Alice's Catering Services – August, 2005

- created an industry and company study/audit for Alice's Catering Service. The paper includes a formulated strategy for the next 3 years (2006, 2007 and 2008)

Optimization of the Production of Electricity in the Luzon Grid – June 2003 to May 2004

- created a linear programming model for all power plant units in the Luzon Grid that will minimize the total cost (fixed and variable costs) for the National Power Corporation. The study was commissioned by the Board of Investments, Philippines.

Workshops Conducted

Microsoft Office Excel Training Module for Titan employees

- conducted a 8 session Microsoft Excel training module for the employees of Titan at their BGC office
